Date: 06/11/06

Time: 01:06 a.m.

Sonitrol Protected Facility: NAPA Auto Parts

During the early morning hours on 6/11/06, the Sonitrol operator on duty received an "audio activation" with loud crashing noises and movement. Police were dispatched immediately to this location and notified that a break-in was in progress.

When Police arrived they found two intruders within the Auto Parts Store. The Sonitrol operator could hear them yelling at the intruder's to get on the floor. One intruder complied and the other ran out the back door of the facility.

Although it was a long night for the Store manager, he was very pleased to have not lost any property and that the perpetrators were caught.
